Aditya Gadkari, Research Analyst

Aditya joined ECONorthwest as a Research Analyst in 2022 after graduating from Reed College with commendation. He specializes in data analysis, programming, and applied econometrics. Prior to joining ECONorthwest, Aditya was a research assistant and tutor in the Economics Department at Reed. He completed a senior thesis researching the impacts of competition and market integration on agricultural prices and farmer satisfaction in India. He received the Gerald M. Meier Award for Distinction in Economics for his scholarship at Reed College. Aditya is experienced in R, STATA, and Python.

REPRESENTATIVE PROJECTS

Aditya has served as Research Analyst on the following projects, unless otherwise noted:

- **BART Transbay Rail Crossing—Oakland, CA (2022-Ongoing).** As subs to WSP and Cambridge Systematics, developing econometric models that integrate into the land use model to support transit modeling of a new rail crossing in the Bay Area.

PRE-ECONORTHWEST EXPERIENCE

- **Research Assistant and Economics Tutor, Reed College- Portland, Oregon (2022).** Assisted Prof. Tristan Nighswander in his research on alternative asset markets specifically looking at price fluctuations in the resale graphic novels market. Tutored students in Microeconomic Theory to help improve their understanding of core course topics.
