

Nathaniel Trull

Associate

Nathaniel joined ECONorthwest as an Associate in 2023 to work in the Natural Resources practice area. Prior to joining ECONorthwest, Nathaniel worked on academic research related to user-valuations of a public arboretum and research related to the economics of cellulosic biofuels. These research endeavors led to co-authorship on two peer-reviewed academic journal publications.

Education

M.S. Agricultural Economics,
Purdue University

B.S. Agricultural Economics,
University of Kentucky,
Magna Cum Laude

Areas of Expertise

- Agricultural Economics
- Environmental Economics
- Natural Resources

PRE-ECONORTHWEST EXPERIENCE

Student Sustainability Consulting Project | KY | 2014

Collaborated with five team members to create and distribute a sustainability survey over the University of Kentucky-Fayette County Arboretum to students, faculty, and the Lexington, KY population at-large. Survey included willingness to pay (WTP) elicitation and choice experiment section. Collected, organized, and analyzed over 300 respondents. Report was presented to University of Kentucky's Student Sustainability Council.
